**Dream Foods International debuts its New Organic
Italian Volcano® Blood Orange and Tangerine Juices and
Italian Volcano® Old Fashioned Premium Lemonade and Limeade
at the Winter Fancy Food Show**

Santa Monica, CA, January 11, 2010 -- Dream Foods International, LLC (www.dreamfoods.com), proudly announces its new single serve *Italian Volcano® Blood Orange* and *Tangerine Juices*. They are made from 100% pure single origin citrus grown in Sicily, not-from-concentrate, kosher, preservative free, juices with a delicious fresh-squeezed taste. This follows the success of the company's larger family size organic juices. Sales Manager, Michelle Hankins said, "These single serve bottles give the organic consumer the opportunity to enjoy these juices more conveniently outside of the home. The 8.5 oz single serve bottle is the perfect way to enjoy these great tasting juices on the go. Not only are these juices great tasting, they are high in Vitamin C and Potassium. The blood orange juice is also high in antioxidants." The suggested retail is \$3.29. "The Winter Fancy Food Show has an enormous gourmet food following that makes it a great venue to debut our new products. We are responding to the demand of the organic food market by offering the new single serve sizes of our *Italian Volcano® Blood Orange* and *Tangerine Juices*," continued Hankins.

Dream Foods International also proudly announces the arrival of its old fashioned premium *Italian Volcano® Lemonade* and *Limeade*. They are USDA organic, not-from-concentrate, preservative free and made in Italy. The 25.3oz glass bottles with retro labels will grab consumers' attention. The Italian countryside inspired the development of the premium *Italian Volcano® Lemonade and Limeade*. "They are great tasting healthy options to quench a summer's thirst. The idea came to me while squeezing fresh lemons in Sicily during the summer to create a refreshing beverage. It's possible to buy these types of beverages in little kiosks in Sicily where they squeeze the lemons by hand to order," Founder and President of Dream Foods International LLC, Adriana Kahane said.

About Dream Foods International, LLC

Dream Foods International, LLC distributes super-premium, organic, kosher, not-from-concentrate, glass-bottled juices under the *Italian Volcano*® brand. This line includes organic blood orange, tangerine and lemon juices from Sicily, along with the bestselling *Volcano Lemon Burst*® and *Volcano Lime Burst*® squeeze bottle juices. Consumers can buy Dream Foods International's products at the website www.mybrands.com by searching under the brand name Volcano, or they can register on the company's website at www.dreamfoods.com to get recipes and to find retailers in their area.
