Dream Foods International Announces its Public Page on Facebook

Santa Monica, CA, February 3, 2010 -- Dream Foods International, LLC (www.dreamfoods.com), proudly announces the launch of its public business page on Facebook. This is a great opportunity to stay informed about our new products, up coming events and promotions. "We wanted to be able to reach out to our consumers in a real time format," said Founder and President, Adriana Kahane.

With the recent debut of the new single serve *Italian Volcano® Blood Orange and Tangerine Juice* and Old Fashioned Premium *Italian Volcano® Lemonade and Limeade* at the Winter Fancy Food Show in San Francisco, Facebook has been a great instrument to give our consumers a more intimate look at our latest developments. Presently, we are looking forward to the Natural Products Expo West Show on March 12th – 14th in Anaheim, CA and sharing our latest news with our continually growing fan base on Facebook.

"Facebook is also a great place for us to post recipes themed to holidays so our fans have them at their fingertips," added Kahane. "Rather than searching for what to serve on Valentine's Day for example, they will see new cocktails pop-up that inspire creative ways to enjoy our beverages. We also really look forward to hearing back from our consumers about how they experience and enjoy our juices," said Kahane.

To stay informed about all of our up coming events and latest news, you can become a fan and follow us on Facebook at: <http://www.facebook.com/pages/Dream-Foods-International/207743605926>.
